

00599362 CONNECTORS

Emergency Starting Socket KIT

00599362

Description

Sealed socket with a connector that is used for emergency starting of a vehicle. The body is heavy duty with a flip cover that is sealed to IP54. The contact material is silver plated copper for maximum conductivity and corrosion resistance.

Features and Benefits

- Spring-loaded flip lid cover for socket ensures a watertight seal when the cover is closed
- Impact and chemical resistant PLASTIC cover and lid provide extended life in abusive environments.
- The highest protection available to water IP54 and high temperature.
