NEW 4" QUAD EDGE SERIES LAMPS

Now drive with confidence in darkness with the Quad Edge Series Lamps. The Quad XCT Wide Angle Optics with Edge Technology lamp combine a 20 degree driving beam paired with twin 170 degree angled cornering lighting to blanket the road, woods or trail in the darkest conditions. The wide angled lens and housing provide nearly a 180-degree blanket of foreground lighting. The center of the light boasts a driving pattern that gives the long-range distance needed for higher speeds.

- Kit complete with 2 lamps, preassembled harness and hardware
- ECE Compliant
- Aluminum Housing, Polycarbonate Lens
- IP 67 Tested and Compliant, water/dust
- 2 Years Warranty

MULTIPLE MOUNTING OPTIONS

Hanging down or Upright mounting compatible
