

Smart Immersion Heater

EcoFlow PowerGlow

Turn Solar into Hot Water

The EcoFlow PowerGlow Smart Immersion Heater 3.5/6/9kW is a water-heating device specifically designed for connected photovoltaic systems. Operate independently of your PV system or seamlessly integrate with EcoFlow PowerOcean. Enhancing your self-sufficiency, PowerGlow efficiently utilises surplus solar energy to heat your water. With super fast installation, it's the perfect way to kickstart your clean energy heating experience.

* EcoFlow PowerGlow should always be used with a full water tank to prevent potential dry-fire hazards.

Utilise Excess Solar to Secure Hot Water Availability

Enhance self-consumption with excess solar from EcoFlow PowerOcean* to provide heating water for your home.

* When PowerGlow is integrated with PowerOcean, the PowerOcean DC Fit is not supported.

Smart Control via EcoFlow App

Monitor energy consumption and savings through a visual interface with three modes to meet varying usage needs.

PowerGlow synergises with PowerOcean. Use **Manual Mode** and **Solar Mode** to help you achieve higher self-consumption rates.

Manual Mode

- Set your target power and temperature manually.

Solar Mode

- EcoFlow PowerGlow operates solely based on the availability of solar power.

When used independently, PowerGlow offers **Manual Mode** and **Smart Mode** to help you easily achieve hot water freedom.

Manual Mode

- Set your target power and temperature manually.

Smart Mode

- Set desired temperature and duration.
- EcoFlow PowerGlow will auto-adjust power for efficient energy consumption.

Meter-free Installation*

When installed together with EcoFlow PowerOcean, no extra meter is needed.

* When used as a standalone product, with no integration with PowerOcean systems, EcoFlow PowerGlow can also help you achieve an entry-level home heating management with an extra meter needed.

*All specifications and descriptions shown may differ from the actual specification of the product. EcoFlow reserves the right to make changes and amendments to the product shown and described here at any time without prior notice of such change.
